

Dear Ladies and Gentlemen, dear friends of ceramic implants
Dear colleagues, dear ESCI members and partners

Especially in the world of ceramic implantology, only the facts should count!
Consequently, the **3rd European Congress for Ceramic Implant Dentistry** will be held under the motto **"Facts about Ceramic Implants Part III"**.
Individual experience provides confirmation: The advantages of ceramic implants are becoming obvious in clinical use and patients` interest constantly increases.

In order to combine science with clinical experience, the ESCI, as the first scientific and evidence-based professional society for ceramic implant dentistry, is hosting the European Congress for Ceramic Implant Dentistry for the third time at the magnificent Bocken Estate in Horgen near Zurich, Switzerland.

In this stylish setting, we are looking forward to high-level lectures, a lively exchange of experiences and an intensive come together.
The program is once more unique in ceramic implantology - the scientific lectures by internationally recognized experts as well as exciting workshops will provide clinically relevant and long-lasting inspiration for all participants.

Let us surprise you! ... visit the
3rd European Congress for Ceramic Implant Dentistry!

We are looking forward to seeing you!

Dr. Jens Tartsch
President ESCI

PD Dr. Stefan Röhling
Vice President ESCI

Organisation/Contact

Date and times

Thu. 25. Sept. 2025 08:30 - 18:00 Pre Congress Workshops
Fri. 26. Sept. 2025 08:30 - 18:00 Scientific Program
Sat. 27. Sept. 2025 08:30 - 16:30 Scientific Program

Venue and location

Seminarhotel Bocken
Bockenweg 4
CH-8810 Horgen / Zurich / Switzerland
www.bocken.ch

Congress language

English

Transport

The ESCI offers a free shuttle service for the registered participants between the congress hotels and the congress venue "Landgut Bocken".

Workshops

The workshops on Thursday afternoon are free of charge
ESCI Workshop Univ. Zurich with 3 Live surgery's 180 CHF
Workshops can be booked only by congress participants.

Registration fees

ESCI Member	490 CHF	Non-Member	650 CHF
Postgraduate member	380 CHF	Postgraduate non- member	490 CHF
ESCI Gala-Dinner	120 CHF	Welcome Reception	0 CHF
Workshop Univ. Zurich	180 CHF	Hands-on Workshops	0 CHF

incl. workshops

w1, powered by ESCEI and Center for Dental Medicine University Zurich
Prof. Ronald Jung, Dr. Marc Balmer, Dr. Jens Tartsch
3 Implant Systems, 3 live surgeries, 3 hands-on workshops
Get an unique and deep insight into the bone familiar with
3 different Ceramic implant systems!
Full day workshop 8:00 -17:00 at Centre for Dental Medicine Zurich
incl. lunch and transport to the Congress Welcome Reception
Please note: this workshop will take place at Center for Dental Medicine University Zurich

w2, powered by CeramTec Switzerland GmbH
Dr. Ina Wüstefeld
The Zeramex Workshop "From practice for practice"
Please note: this workshop will take place at CeramTec Switzerland AG in Spreitenbach

w3, powered by Camlog
Dr. Frank Maier M.Sc.
The new Ceralog Progressive-Line and augmentation procedures

w4, powered by Z-Systems
Dr. Mariane Sordi M.Sc.
Precision in practice: zirconia implant placement with Z-Systems

w5, powered by MyPlant
Dr. Wolfgang Sausmikat
Optimization of dental implants through ceramic surface modification

w6, powered by Purgo
Prof. Ralf Smeets
Update on augmentation techniques 4.0: Use of KEM and PRF

w7, powered by Neodent
Dr. Kesav Babu
Biocompatibility and prosthetic options: Neodent Zirconia at bone level

w8, powered by Steinson Ceramics
Dr Igor Dogocki
Upgrade in Osseointegration and Drill-Free Bone Preparation

The SOCIAL WELFARE

The ESCEI Welcome Reception

The ESCEI Swiss Gala Dinner

Prof. Jérôme Chevalier, FRA
*Ceramics for dental implants applications:
state of the art, current developments, perspectives*

PD Dr. Nadja Rohr, CH
*Surface structuring of zirconia implants -
a marketing tool?*

Dr. Marc Balmer, CH
*Zirconia Implants:
What we have learned from clinical studies*

PD Dr. Stefan Röhlings, GER
Clinical evidence for application?

PD Dr. Paul Weigl, GER
*Biological effect of a highly corrosion-resistant
implant surface - comparable to zirconia?*

*Exploring the Evidence:
Prosthetic options for ceramic implants*

Prof. Eik Schiegnitz, GER
*Between empirical evidence and clinical practice
ceramic implants in clinical practice guidelines*

Prof. Michael Payer, AUT
Cinical experience with ceramic Implants

Dr. Volker von Baehr, GER
Immunology of titanium

Dr. Alan Porporati, ITA
What we learn from endoprosthetics

Dr. Sebastijan Perko, SLO
*Impact of Serum Biomarkers on Ceramic Implant
Osseointegration: An Ostell-Based Analysis*

Dr. Joan Pi Afruns, USA
Full arch rehabilitation

Prof. Sebastian Köhl, CH
*Clinical experience within a
multicenter study*

Prof. Reinhard Gruber, AUT
Scientific background to blood concentrates

Prof. André Chen & João Borges DDS, MSc, POR
*Prostodontics and digitalization
in ceramic implants*

Drs. Markus & Mathias Sperlich, GER
Preserving biology through immediate digital treatment

ESCEI AWARD

The ESCEI offers to all ESCEI members the unique opportunity to submit the presentation of their case reports and their scientific work. The ESCEI jury will choose the best presentation. The ESCEI Award is endowed with CHF 1000. The winner is invited to present it's work at the main congress sessions.
